DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The full name of each inventor (family name and at least one given name together with any initial) has not been set forth.

Claim Objections

2. Claim 1 is objected to because of the following informalities: "~" should be "-". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 1 recites the limitations "contains cerium" and "in the beta-zeolite." This limitation renders the claims indefinite because it is not clear what applicant intends to encompass by "contains" and "in," i.e. could include compositions where the cerium is ion-exchanged or impregnated. It is suggested that applicant amend the claim to recite

Art Unit: 1725

that the cerium is contained within the zeolite framework, as indicated in the inventive examples.

Allowable Subject Matter

6. Claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest a catalyst composition wherein the zeolite beta has the required particle diameter in combination with the Ce/Si ratio or the process of using such a catalyst.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
